SOFTWARE

- Blender Cycles / Eevee
- After Effects
- Premiere Pro

PRODUCT VIZ

- PBR Materials
- Studio Lighting
- Rim-light
- Product Rigging

ARCHVIZ

- Interior Set Design
- IES Light Profiles
- Global Illumination

VFX & ANIM

- Fluid Dynamics
- Motion Blur
- Graph Editor
- Camera Tracking

POST-PROD

- Color Grading
- Compositing
- Chromatic Aberration

PROFILE

Versatile 3D Artist with 2 years of experience delivering high-end product visualization, cinematic CGI advertisements, and architectural interiors. Expert in Blender (Cycles/Eevee), photorealistic texturing, global illumination, and fluid simulations. Proven track record producing assets for social media campaigns and real estate walkthroughs.

EXPERIENCE

3D Artist & Animator   2024 – Present
Freelance

- Delivered premium CGI for automotive, cosmetic, and architectural clients.
- Optimized render pipelines and built custom 3D environments from scratch.
- Increased client social media engagement through high-impact visual storytelling.

Junior 3D Artist   2022 – 2024
Studio

- Hard-surface modeling and development of a comprehensive PBR material library.
- Integrated Motion Nations & VFX World production workflows seamlessly.
- Contributed to Cycles/Eevee renders across product visualization and archviz projects.

SELECTED PROJECTS

McLaren Cinematic
Cinematic car reveal — Graph Editor animation, motion blur, lens flares, high-octane camera work and premium post-production.

Architectural Interior
Photorealistic interior series for real estate — IES light profiles, window light, PBR marble and wood surface materials.

Premium Fluid Simulation
Commercial assets — liquid simulation, HDRI, macro DoF, refraction and splash detail for product reveal sequences.

Minimalist Set Design
Beauty/skincare CGI for e-commerce — soft-box lighting, pop-art palette, clean geometric studio aesthetic.

EDUCATION

3D Visualization & Digital Arts — Specialist Certificate

- Advanced CGI Production
- Cinematic Lighting Techniques
- Material & Shading Workflows
